# Introduction and inspiration

Throughout this poster, we put a lot of thought into our core values of VEX and took a lot of inspiration from our VEX community.

Creativity	Brain Power	Building
Connections	Friendship	Coding
Inclusion	STEM	Cooperation

From this we derived the following, our 23-24 team poster

Sincerely,

THE GIGABYTES, 1715G

Hopkinton MA
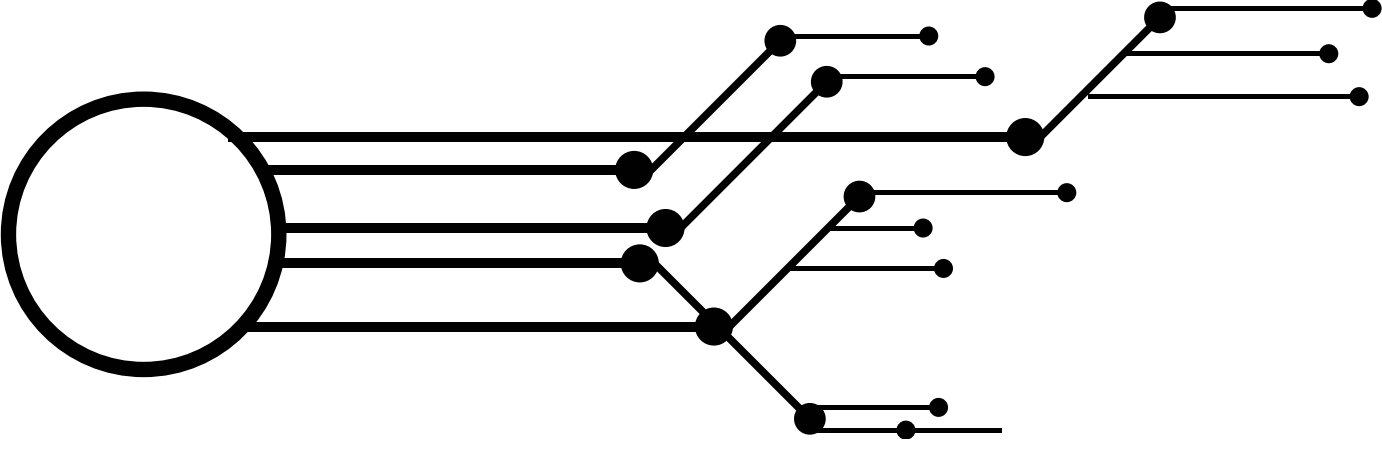

Team Members:
Suren Sahakyan
**Evan Mathur**
Divit Vallandas
**Ian Pararas**

Hopkinton Middle School

The VEX Experience

While participating in VEX, student will learn and exercise many STEM aspects of the engineering and robotics world.

Vex is a very cooperative and collaborative environment that can open new worlds of social, emotional, and intellectual thinking in young minds.

Joining VEX is simple. All you have to is send an email to your local coach/team leader and if there's an opening and the next meeting is, and your in and destined for success!
